

Energy Solutions & Retrofits

Independent Electric Supply offers the latest in LED technology, including fixtures, replacement lamps, and state of the art controls. Whether you are working on a retrofit, new construction, or custom lighting project our Energy Services Team can help you identify the most efficient products, matched with the highest incentive available.

Our Energy Services Team offers FREE comprehensive energy audits that will maximize your return on investment. We provide product demonstrations and work with local and regional utilities to insure that your project receives the maximum allowable incentive. We have completed many large and small projects both locally and nationally with paybacks normally within 2 years. Our solutions offer the opportunity to improve productivity, safety and the comfort of your employees and customers while saving you money by reducing your energy bill!

Our expert lighting team has the technical knowledge and experience to match your lighting and control requirements, based on your specific project needs, to ensure that you have the right color, lumen output, wattage, beam pattern, and kelvin temperature.

Contractor Benefits:

- Reduce energy cost
- Improve the quality of lighting
- Lower maintenance expense
- Quick payback/ROI
- Reduce your carbon footprint

Value Add Services:

- Walk-through energy audits
- Lighting system design
- Product demonstrations
- Payback analysis/ROI
- Utility rebate application assistance

Customer Testimonials:

“Margaritas had already spent a good deal of time trying to find an LED solution for our restaurants. We wanted a distributor partner that had the product expertise and could manage potential warranty issues. The team from Independent Electric Supply found a manufacturer and provided us samples for a pilot test in one of our restaurants. The pilot was a huge success and they became our consulting partner. They understood the products, applications and were able to manage the utility incentives for Margaritas.”

Kelly Barker, Margaritas Restaurants

With 11 stores in the state of Massachusetts, Bob's Stores was looking for an LED lighting solution delivering both improved color rendering, while at the same time, reducing energy consumption. Independent Electric Supply was able deliver a solution that exceeded this customersa expectations.

“Independent Electric Supply was able to identify LED lighting products that met or exceeded performance expectations. As a result, we selected them as one of two suppliers for the LED retrofit project in sixty-one Massachusetts restaurants. They brought product expertise, lighting energy audits and utility incentives to us that were vital to getting this project approved and funded.”

Phil Gagne, Facilities Manager,
The Ninety Nine
